January 2014

Welcome Message from the New Field Director

The CNCF was set up as a strong program, highly collaborative and with big ambitions to promote not only access and awareness of Cochrane resources by nurses; but also to increase practical and scientific engagement with Cochrane by the global nursing community. The programs of activity (particularly podcasts, evidence transfer and overviews of reviews) are progressing very well, and are supported by a strong team; more information on the programs and people is available from <http://cncf.cochrane.org/home>

A registered nurse, receiving editor of the Cochrane Nursing Journal Section and active participant in the Fields activities, I have also been involved in Cochrane Methods and Review Groups and am pleased to continue the programs of activity started and developed under Professor Pearson's leadership.

I look forward to working with you and invite you to the 2014 AGM in Hyderabad, India this September.

Assoc Prof Craig Lockwood
School Translational Health Science,
University of Adelaide

Evidence Transfer Program (ETP) Update

The CNCF is pleased to announce the following Journals have agreed to continue publishing our summaries in 2014: Neonatal, Paediatric and Child Health Nursing, Critical Care Nurse, and Clinical Journal of Oncology Nursing.
