

## Newsletter

May 2013

### Thank you

A big thank you to all of our volunteers who responded to our callout to help celebrate the 20<sup>th</sup> Anniversary of the Cochrane Collaboration by developing short editorials for a range of Nursing Journals. To date we have already submitted seven editorials. There are still spots available as more Journals come on board. If you would like be involved please email your details to [cncn@adelaide.edu.au](mailto:cncn@adelaide.edu.au) and don't forget to outline your specialty/background. We are in particular need of people with the following backgrounds: cardiovascular, mental health and learning disabilities.

### Abstract Acceptances

The Nursing Care Field is excited to announce that the two abstracts they submitted for the Cochrane Colloquium have

been accepted for poster presentations. The titles are:

*Engaging nurses in the work of the Cochrane Collaboration: a field's account*

and

*The challenges of establishing and maintaining a multilingual clinical trials register*

The Field will also be involved in the following presentations in conjunction with some of the other Cochrane Fields:

*20 ways to move Cochrane evidence into practice: A celebration of 20 years of disseminating Cochrane's research to the world - and how you can use what we've done (workshop)*

and

*Issues in developing and disseminating summaries of Cochrane reviews for specific external audiences (oral presentation)*

The Nursing Care Field will have a strong presence at this year's Colloquium so it would be great to see as many of you as possible to support our cause.

Don't forget - early registrations for the Colloquium receive a 20% discount. Early registrations close on the 15<sup>th</sup> July.

## Evidence Transfer Program Update

We welcome Orthopaedic Nursing to our growing list of Journals we collaborate with. They will be publishing six summaries over the next 12 months

Summaries published since last newsletter:

Andrews L. 2013 Antiplatelet and Anticoagulant Drugs for Prevention of Restenosis/Reocclusion After Peripheral Endovascular Treatment. *Clinical Nurse Specialist*. Vol 27(3):121-122.

Christie J. 2013 Diagnosing Mycoplasma pneumonia in Children and Adolescents with Community Acquired Pneumonia. *American Journal of Nursing*. Vol 113(5):65.

Góis Paixão MJ. 2013 Atypical antipsychotics for disruptive behavior disorders in children and youths. *American Journal of Nursing* Vol 113(6):60.

Yan X. Interactive computer-based interventions for weight loss, *Nursing Times* Vol 109(17-18):27.

## Other Cochrane News

The next two videos from the Cochrane Collaboration's video series have been released. The videos have been made to mark

Cochrane's 20<sup>th</sup> anniversary and are available through the Cochrane YouTube channel <http://youtube.com/user/cochranecollab>. The new videos are:

- 1) A personal profile of Ashraf Nabhan (an Author in the Cochrane Pregnancy and Childbirth Group)
- 2) Engaging consumers
