

Newsletter

October/November 2013

Joanna Briggs Institute International Convention in Adelaide, Australia. It gave us a great opportunity to showcase our activities. Thankyou to all those who attended and volunteered to be involved in our work.

The Cochrane Colloquium is over for another year! Quebec City was absolutely beautiful and thankyou to those that attended our AGM and sessions. If you were not able to attend the Colloquium, videos of the plenary sessions are available at <http://colloquium.cochrane.org/plenary-videos>. A highlight for the Field was the 1st Annual Cochrane Lecture presented by Sir Iain Chalmers, one of the founders of the Cochrane Collaboration.

The dates for next year's Colloquium have been set for the 21st-25th September in Hyderabad, India so be sure to save the date!

CNCF Symposium

A CNCF Symposium on How to become involved in the Cochrane Collaboration to promote and support evidence-based health care was held on the 23rd October as part of the

Trials Register Reminder

The CNCF's Trials Register is now available at <http://cncf.cochrane.org/cncf-trials-register-2013>. The Register contains Randomised Controlled Trials and other relevant trial reports within the scope of nursing.

Evidence Transfer Program (ETP) Update

The CNCF is pleased to announce the following Journals have agreed to continue publishing our summaries in 2014: American Journal of Nursing, Singapore Nursing Journal, Online Journal of Issues in Nursing and Primary Health Care Research and Development. We will be sending out requests to our volunteers shortly. If you would like to register your interest in this program please contact us.

We are also delighted to welcome the Journal of Perioperative Practice to our growing list of Collaborators.

Summaries published since last newsletter:

Ching LC. Cochrane Review Summary for Cancer Nursing: Low-Bacterial Diet Versus Control Diet to Prevent Infection in Cancer Patients Treated With Chemotherapy Causing Episodes of Neutropenia, *Cancer Nursing* 36(6):493.
